Facebook: [thinh.hoangxuan.3](#)

SAP ABAP DEVELOPER

LinkedIn: [thinhhx0108](#)  
GitHub: [ThinhHoang0108](#)

## SKILLS

- **Programming Languages:** SAP ABAP, Java, JavaScript, HTML/CSS
- **SAP ABAP Development:** ALV, BAPI, BADIs, Enhancements, Data Migration (LSMW, BDC)
- **Integration:** SAP ALE/IDoc, EDI IDocs, RFC
- **SAP Modules:** MM, SD
- **Frameworks & Technologies:** SAP Smartform, OLE Object, SAP Excel, OData Service, SAP Fiori, SAP UI5, ReactJS, Spring Boot
- **Databases:** SAP S/4HANA, Microsoft SQL Server, Open SQL
- **Tools & IDEs:** SAP GUI, Visual Studio Code, Eclipse, IntelliJ
- **Version Control:** Git
- **Languages:** English (TOEIC 750) – Advanced Reading & Writing Skills

## EDUCATION

### FPT University - Hoa Lac Campus

10/2020-12/2024

- Bachelor, Information System (Specialization: SAP Interdisciplinary)
- GPA: 3.0/4.0

## WORK EXPERIENCE

### FPT Software Academy

#### Front-end Developer

07/2023 – 09/2023

Learned and implemented ReactJS fundamentals

- Assisted in coding, functional testing, debugging, and optimizing ReactJS components

### FPT Software

#### Back-end Developer

09/2023 – 12/2023

- Developed client-side features for a website builder using Spring Boot (e.g., wishlist, product finder, pagination, sorting).
- Design database for a small to medium-sized flower shop

## PROJECTS

### E-Learning

#### Team Project

01/2023 – 03/2023

- **GitHub:** [ThinhHoang0108/OnlineLearning](#)
- **Descriptions:** Developed an online E-Learning platform with features like account login, registration, blog viewing, quizzes, and score reviews.
- **Personal Task:** Login by account, register an account, view blogs, view course details, view the blog's comments, practice quizzes, review taken quiz scores, true/false answering, and manage quizz.
- **Tech:** Java, JavaScript, HTML/CSS, Bootstrap, AngularJS, JQuery, Axios-Promise, SQL Server.

### Employee Management

#### Personal Project

05/2024 – 07/2024

- **Descriptions:** Developed an employee management system using SAP ABAP with CRUD functionalities.
  - ALV Report: Displayed lists and Updates of employees, departments, and positions.
  - Dynpro: Created input and update screens for employee information.
  - Lock Object: Ensure only one person updates the table at a time.
- **Tech:** SAP ABAP, ALV Report, Dynpro, Lock Object

### True Warehouse Management

#### Capstone Project

09/2024 – 12/2024

- **Descriptions:** My graduation project involved designing and developing a Purchase Order (PO) Approval Workflow and a Goods Receiving Report (GR Report) in SAP. This included integrating SAP Mail notifications, designing purchase order templates export to pdf, and creating a GR report with export options to Excel.
- **Tech:** SAP ABAP, SAP Workflow, Sap Mail, OLE Object, Smartform, Authorized Object, BADI.
- **GitHub:** [ThinhHoang0108/SAP490-CapstoneProject](#)
- **Personal Tasks:** Goods Receiving Report in Excel
  - View and print the GR report with Excel, Purchase Order (SmartForm) with PDF.
  - Check user plant authorize access to ensure they can only view reports for their assigned.
  - Automatically suggests the plants the user can access.
  - Document Reversal: When a document is canceled, it will not be included in the GR report.

## CERTIFICATES

- **Nov 23, 2023:** Academic English: Writing
- **May 19, 2024:** Google Business Intelligence
- **Jun 29, 2024:** Project Management - University of California
