- Collaborated with PMs and QA teams to deliver high-quality software on time, aligning with stakeholder expectations and project goals.

Teky Academy Ho Chi Minh City, Viet Nam

Coding Teacher 04/2024 - 06/2025

- Delivered full-stack web development training covering HTML, CSS, JavaScript, and Python,Scratch from basic to advanced levels.
- Guided students in building real-world applications through hands-on lectures and project-based learning.
- Provided mentorship to help learners strengthen practical coding skills and problem-solving abilities.

BrightCHAMPS VN Ho Chi Minh City, Viet Nam

Coding Teacher 04/2025 - Present

- Provided 1-on-1 online web development coaching, covering HTML, CSS, JavaScript, and PHP from fundamental to advanced levels.
- Supported students in building real-world projects through personalized guidance and hands-on coding sessions.
- Helped learners improve practical skills and confidence through tailored mentoring and continuous feedback.

Projects

Pham Gia Nguyen Reputyze Asia

09/2024 - 12/2024

ERP System & WordPress Integration for B2B/B2C Sales

- Tech Stack & Tools:** PHP | Laravel | WordPress | MySQL | RESTful APIs | Git | cPanel | Custom Theme & Plugin | API Data Mapping | UI/UX Fixing | System Debugging | Deployment | Functional Testing
- Team Size:** 2
- Key Contributions:** Deployed both ERP and website to production hosting with Git version control and proper CI practices | Implemented and debugged API integrations to ensure data and order synchronization between systems | Resolved mapping issues for products and orders, ensuring data consistency | Fixed functional and UI/UX issues across both systems based on test cases and client feedback | Performed end-to-end testing and optimized the integration pipeline for stability and real-time sync.

Projects

Phan Thiet Marathon Website

Reputyze Asia

<https://phanthietmarathon.stopandsports.com/>

08/2024 - 09/2024

Website WordPress

- **Technologies & Tools:** WordPress | Elementor | Custom Child Theme | HTML/CSS | JavaScript | UI/UX Optimization | Weekly UI Updates | Cross-device Testing | Corporate Registration Flow | Client-side Customization
- **Team Size:** 6
- **Key Contributions:** Built a registration-focused site using WordPress and Elementor with child theme customization | Developed scalable UI for both individual and corporate registrations | Resolved cross-device UI issues and enhanced user journey flows | Applied client-requested updates on a weekly basis for ongoing engagement | Maintained performance and usability throughout the event lifecycle

The Royal (Thai Grand) Hotel Website

Reputyze Asia

<https://thaigrandscasariva.vn/>

09/2024 - 09/2024

Website WordPress

- **Technologies & Tools:** WordPress | Elementor | HTML/CSS | JavaScript | Git | UI/UX Design | Responsive Design | Bug Fixing | Hosting Deployment | Weekly Design Updates | Branding Implementation
- **Team Size:** 1
- **Key Contributions:** Deployed WordPress site with Git integration and customized hosting setup | Designed and implemented responsive UI using Elementor and custom code | Addressed layout and interaction bugs based on real-user testing and feedback | Delivered weekly visual updates aligned with client branding | Ensured smooth performance across devices and browsers

Booking Hotel Website

https://github.com/KhoaNgDev/Project_Laravel_Hotel

03/2024 - 05/2024

Hotel booking system with full reservation flow and multi-payment support.

- **Key Features:** Role-based access control with multi-authentication | Room availability and inventory management | Custom checkout without external packages | Stripe & COD payment integration | PDF invoice generation and email notifications | Real-time booking updates & reporting system | Import/export bookings via Excel | Dynamic email configuration & multi-image uploads | Professional frontend/backend themes and responsive UI
- **Team Size:** 1 (Personal Project)
- **Technologies & Tools:** Laravel 10 | PHP | MySQL | Stripe API | Blade | Bootstrap | AJAX | jQuery | PDF Generator | Excel Import/Export | XAMPP | Git

Job Portal Website

https://github.com/KhoaNgDev/Project_Laravel_Job_Portal

01/2024 - 02/2024

Built an advanced job portal platform with multi-role authentication and full job management system.

- **Key Features:** Multi-auth system (Admin, Company, Candidate) | Dynamic job listings, roles, categories, and locations | Drag-and-drop menu & page builder | Job application and resume submission workflows | Stripe, PayPal & Razorpay payment integrations | Newsletter & blog modules | Admin analytics dashboard | Role & permission management | Custom CMS & testimonial system | PDF invoicing & database clearing
- **Team Size:** 1 (Personal Project)
- **Technologies & Tools:** Laravel 10 | PHP | MySQL | Stripe API | PayPal API | Razorpay | Blade | Bootstrap | AJAX | jQuery | PDF Generator | Git | XAMPP

Education

Ho Chi Minh City University of Foreign Languages and Information Technology – HUFLIT.

Bachelor's in Software Engineering

2021 - 2025

VTI Academy

Studying for AWS Certified Solutions Architect – Associate (SAA-C03)

07/2024 - 09/2024

Languages

English:
Good verbal communication | Strong reading comprehension of technical documents
