About Me

As a Frontend Developer with 2+ years of experience in web development, I specialize in implementing and designing user interfaces. I possess strong skills in HTML, CSS, JavaScript, and ReactJS, with a focus on building user-friendly websites. I am actively seeking new opportunities to further enhance my frontend expertise and contribute to impactful projects.

VLANCER SOFTWARE

Oct 2022- August 2024

Front End Developer

My responsibility:

- Using Javascript manipulates the elements depending on the user interactions.
- Involving in developing HTML and Javascript for client side presentation and, data validation on the client side within the forms.
- Software development of web based application.

Completed Project

EMS Systems

- *Project Description: Real-time energy, management device IOT, calculation electricity price, Net Zero , Show Measures to reduce CO2 emissions*
- *Repository [That is private project](#)*
- *Technical Used: HTML | TypeScript | Vite | Redux Toolkit | React-Router-Dom/Thingsboard IOT / Antd | Tailwindcss*
- *Role in project :*
 - *Responsible for all tasks related to the front end*
 - *Build some functions as create show chart real-time, Export report, Import Form Data*

Solar Monitoring Systems

- *Project Description: Real-time energy solar, management device IOT, calculation electricity price....*
- *Repository [That is private project](#)*
- *Technical Used: HTML | ReactJS | MUI | Vite | Thingsboard IOT*
- *Role in project:*
 - *Antd design for Layout page*
 - *Build some functions as create show chart real-time,*

OEE Solution Systems

- *Project Description: Real-time activity of device, management device IOT, Production planning, Device control*
- *Repository [That is private project](#)*
- *Technical Used: HTML | ReactJS | CSS | Vite | Thingsboard IOT | Antd*
- *Role in project :*
 - *Build style CSS layout*
 - *Build features Chart, Overview Page,..*
 - *Build functions as add Item, delete, calculator price total,..*

Completed Project

Anime Web

- *Project Description: Anime Film Web*
- *Repository <https://anime-zeta-three.vercel.app/>*
- *Technical Used: HTML | SASS | SCSS*
- *Role in project :*
 - *That is personal project*
 - *Responsible for all tasks related to the front end*

Admin Dashboard

- *Project Description: Admin dashboard energy systems*
- *Repository <https://ems-frontend-pearl.vercel.app/>*
- *Technical Used: HTML | ReactJS | MUI | Vite |*
- *Role in project:*
 - *Antd design for Layout page*
 - *Responsible for all tasks related to the front end*

Online Shopping

- *Project Description: Shopping ecommerce*
- *Repository <https://ecommerce-beta-one.vercel.app>*
- *Technical Used: HTML | ReactJS | CSS| Vite | React-Router-Dom*
- *Role in project: :*
 - *Build style CSS layout Cart*
 - *Build features Cart Shopping, Button Add Cart...*
 - *Build functions as add Item, delete, calculator price total,..*

Completed Project

Quizz App

- *Project Description: Quizz Game*
- *Repository <https://react-quizz-app-seven.vercel.app/>*
- *Technical Used: HTML | ReactJS | MUI | Vite | Redux Toolkit | React-Router-Dom*
- *Role in project :*
 - *Create Dashboard Page, Question Page, Score page, Validate Form*
 - *Redux for actions choose question, answer,...*
 - *Deploy demo project*

Trello Clone

- *Project Description: Drag and Drop Web*
- *Repository <https://react-trello-web.vercel.app/>*
- *Technical Used: HTML | ReactJS | MUI | Vite |*
- *Role in project:*
 - *Antd design for Layout page*
 - *Build features List, Card list, Drag and Drop Card*
 - *Build some functions as create new card, delete card*

Shopping Cart

- *Project Description: Shopping Order UI*
- *Repository <https://shopping-cartss.vercel.app/>*
- *Technical Used: HTML | ReactJS | CSS | Vite | React-Router-Dom*
- *Role in project :*
 - *Build style CSS layout Cart*
 - *Build features Cart Shopping, Button Add Cart...*
 - *Build functions as add Item, delete, calculator price total,...*
