

# Le Minh Hieu

## Frontend Developer

As a passionate Frontend Developer, I am eager to create dynamic, user-friendly, and visually engaging web applications. With a proactive mindset, strong adaptability, and hands-on experience in modern frontend technologies, I am committed to delivering intuitive user experiences and optimizing performance. My goal is to continuously enhance my skills, collaborate effectively with development teams, and contribute to building high-quality, interactive web solutions.

## Skills

---

- **Programming Languages:** JavaScript, TypeScript, PHP
- **Frameworks & Libraries:** React.js, React Native, Next.js, Node.js, NestJS, Express.js, WordPress
- **UI/UX & Styling:** Figma, Tailwind CSS, Bootstrap, Ant Design
- **Database Management:** MySQL, MongoDB, TypeORM
- **APIs & Communication:** RESTful API, WebSocket, Firebase
- **Tools:** Docker, GitHub, GitLab, Postman, Trello
- **Soft Skills:** Teamwork, Communication, English (Able to communicate daily and understand technical documents)

## Work experience

---

### LMS System - Frontend Developer | ISC Technology Center | 1/2025 - Present

- Technologies & Tools: React.js, Redux, Tailwind CSS, PostgreSQL, .Net, Github, Postman.
- Responsibilities:
  - Implement **high-performance, responsive UI** based on Figma designs, ensuring seamless user experience.
  - Integrate **RESTful APIs** and collaborate closely with backend developers for efficient data handling.
  - Utilize **Redux** for state management, enhancing application stability and maintainability.

### HRM System - Intern Backend | Mobifone Company | 9/2024 - 12/2024

- Technologies & Tools: React.js, React Native, JWT, Nest.js, TypeORM, MySQL, Gitlab, Postman, Docker.
- Responsibilities:
  - **Designed and structured the database** using MySQL and TypeORM, ensuring data integrity and scalability.
  - Developed **authentication & authorization** mechanisms with JWT to secure user access.
  - Integrated **Rocket.Chat** for real-time messaging and team collaboration, enhancing internal communication within the system.
  - Integrated **RESTful APIs** for seamless communication between the backend and mobile application (React Native).
  - Collaborated with the frontend team to ensure efficient API consumption and optimized data flow.

### CRM System - Backend Developer | KATEC Company | 4/2024 - 8/2024

- Technologies & Tools: React.js, Node.js, Express.js, MySQL, JWT, Github, Postman.
- Responsibilities:
  - **Designed and optimized database architecture** in MySQL to ensure data consistency and performance.
  - Developed **secure authentication & authorization** systems using JWT for user access control.
  - Built and maintained backend services for **customer management, sales tracking, lead management, and communication logging**.
  - Implemented **report generation features**, enabling data-driven decision-making.
  - Integrated RESTful APIs with frontend, ensuring smooth data flow and high system performance.
  - Optimized key **frontend components** to enhance user experience and interactivity.

## Projects

---

### English learning website | 6/2024 - 11/2024

- Technologies & Tools: Next js, Nest js, Python, Laravel, Websocket, Mongodb, Jwt, Firebase, Github, Postman.
- Responsibilities:
  - Designed database architecture.**
  - Created **Figma UI/UX designs** to ensure an intuitive and engaging learning experience.
  - Developed **AI-powered test preparation features**, enhancing adaptive learning capabilities.
  - Implemented **vocabulary learning through videos** using **YouTube API** for interactive education.
  - Built **real-time online classrooms** using **WebSocket** for seamless student-teacher interaction.
  - Developed a **Chrome extension** to integrate learning tools directly into the user's browsing experience.
- Link github: <https://github.com/hieuM642004/FSTUDY>

### News Website | 10/2023 - 12/2023

- Technologies & Tools: HTML, CSS, JavaScript, PHP, MySQL, GitHub, AJAX, jQuery, Bootstrap.
- Responsibilities:
  - Developed the **backend logic** and database connection using **PDO** for secure and optimized data handling.
  - Built a **responsive user interface** with **HTML, CSS, Bootstrap, and JavaScript**, ensuring a seamless user experience.
  - Integrated **AJAX and jQuery** to enable dynamic content updates without reloading the page.
  - Implemented **PHP Mailer** for automated email notifications and user interactions.
  - Integrated a weather API** to display real-time weather updates, enhancing the news platform's user engagement.
- Link github: <https://github.com/duynhpc05141/Nhom5>

### Education

- FPT Polytechnic College
- Major: Web programming - GPA: 3.8/4

### Achievements

- TOEIC (Reading & Listening) 600
- Advanced Javascript certification on Udemy
- Top 70 outstanding students in the whole school
