

BUI QUANG CHI

FRESHER DEVELOPER

<https://github.com/marchisDev>

A detail-oriented Web Developer with hands-on experience in ReactJS, UI/UX design, and API integration, passionate about building scalable and user-centric web applications. Skilled in ReactJS, Redux, Tailwind, MUI (Frontend), NodeJS, ExpressJS, RESTful APIs (Backend). Proficient in English communication, problem-solving, and continuous learning.

Short-term goal: Secure a Fresher Web Developer position to apply and enhance my skills. Long-term goal: Become a Full-stack Developer specializing in scalable web applications.

EDUCATION

Ton Duc Thang University

2020 - 2024

Bachelor's Degree in Software Engineering

- Graduated (12/2024)
- GPA: 3.0 / 4.0
- Head of the academic committee of the ICON academic club

WORK EXPERIENCE

eCarAid Company

05/2024 - 08/2024

Role: Full-stack Developer Intern

- Developed and optimized backend services using Django, ensuring efficient API responses and database performance.
- Integrated third-party services (Stripe, Gmail) to enhance system functionality.
- Designed and implemented a responsive UI with ReactJS and MUI, optimizing user experience.
- Reviewed, debugged, and optimized code, improving software reliability.

Technologies: ReactJS, Python, Django

PROJECT

Trello - Work Management Website

12/2024 - 02/2025

Technology: ReactJS, NodeJS, Express, MongoDB, Material UI, Cloudinary, Redux, Jwt, socket, RESTful APIs

Features:

- Authorization, create boards, columns, and cards
- Easily drag and drop across columns, cards
- Assign tasks to board members and comment.
- Real-time notifications, quick search boards, update user information
