WORK EXPERIENCE

FPT Software

Jun 2023 – Dec 2023

Front-end Fresher

- Fresher
- HTML, CSS, JavaScript

Projects

Webdeveloper-ISP392 (InformationSystemProgrammingProject)

- Team Size: 4- Position: BE-FE Developer
- Project Overview: Developed a Dental Clinic Management System aimed at optimizing clinic operations through streamlined user, service, patient, and appointment management.
- Problem Solved: Manual workflows for handling appointments, patient data, and service management were inefficient, time-consuming, and error-prone.
- Goal: Build a web-based system that supports role-specific functionalities for clinic administrators, doctors, and patients.

SAP System-SAP490 (SAP Interdisciplinary Capstone Project)

- Team Size: 5 – Position: SAP Abap Developer
- Project Overview: Built custom SAP ABAP programs to support mass data uploads and asset management automation in SAP ECC.
- Problem Solved: Manual data entry for asset master data, AUC (Assets Under Construction), and investment orders was inefficient and error-prone.
- Goal: Automate the upload and update process for asset-related data to improve efficiency and data accuracy.
