

Nguyen Ngoc Duy

Front-End Developer

As a Front-End Developer with over a year of experience, I specialize in creating responsive, user-focused interfaces for both web and mobile apps using modern JavaScript frameworks and cutting-edge technologies. My work on diverse, innovative projects has sharpened my skills across platforms. Passionate about embracing new challenges, I continuously learn to stay ahead in fast-evolving tech spaces. Eager to join a dynamic team, I'm ready to build seamless, high-impact digital experiences.

Work Experience

G-nhà • Front-End Developer (11/2024 - 04/2025)

1. Projects: gnha.vn

- **Description:** This product is available as both a website and a mobile app that provides planning information, construction details, and other land-related data through Gnhà's map platform. Additionally, it offers in-depth legal services supported by experts and serves as a platform for customers to post real estate listings, articles about selling properties, and content related to real estate legal matters.
- **Technologies:**
 - Website: TypeScript, Vue 3, Nuxt 3, Pinia, Leaflet, UnoCss, Vuetify
 - Mobile: TypeScript, React-native, Expo, React-native-maps, Tailwind, Tanstack.
- **Responsibilities:**
 - Developing the Front-End of the website and mobile app, focusing on creating a clear and easy-to-use interface.
 - Develop a feature allowing users to list real estate by clicking on a land parcel or dragging and dropping a marker onto the correct parcel on the map, which will auto-fill the information in the form.
 - Build a feature to highlight provincial and district boundaries, enabling users to search for land parcel information for real estate inquiries or transactions in app mobile.
 - Learn to use the project's core, components and hooks, and debug a composable , components.
 - Optimizing code, responsive and debugging.

2. Projects: Gnha Admin

- **Description:** This is a website used for managing services, real estate rental/purchase information, customer feedback, payments, customer information, and more.
- **Technologies:** Vue 2, Nuxt 2, Vuex, Vue chartJS, Vuetify .
- **Responsibilities:**
 - Develop CRUD features for the project's management modules.
 - Develop and manage the dashboard by integrating the Chart.js library.
 - Responsive and debugging.

BigTrees • Front-End Developer (07/2024 - 11/2024)

Projects: Business Booking (5 Members)

- **Description:** A web application used by the company operators to manage staff, booking, orders, service, users, etc. for more than 20 spa and nail spas.
- **Technologies:** ReactJS, NextJS, Ant Design, Chartjs, TanStack Query, Dayjs, FullCalendar.
- **Responsibilities:**
 - Handle the Front-End development for the project and create a user-friendly interface .
 - Develop CRUD features for the project's management modules.
 - Develop and manage the dashboard by integrating the Chart.js library.

- Build a feature that enables users to add new bookings and orders directly to the schedule.
- Implemented FullCalendar to display real-time booking and order data in a user-friendly calendar interface, improving scheduling visibility.
- Learn to use the project's core and hooks, and customize a hook to generate codes for promotions, vouchers, etc.
- Successfully complete assigned tasks within deadlines, supporting team goals and workflow efficiency.
- Responsive and debugging.

TreViet Software • Intern Web Developer (05/2024 - 07/2024)

- Helped develop and improve user interfaces of the ERP project using ReactJS, Redux, Tailwind CSS, and Ant Design.
- Proactively researched and learned C# and ASP.NET within two weeks, swiftly applying the knowledge to effectively write basic APIs (CRUD).
- Published demo source code on the IIS server.
- Learned and worked with PostgreSQL.
- Learned how to work independently and solve problems on my own.

Technical Skills

- **Languages:** JavaScript, TypeScript.
- **Front-end Technologies:** React JS, Nextjs, Vue, Nuxt, React-Native, TanStack Query, Zustand, Tailwind,...
- **Back-end technologies (basic):** NodeJS, ExpressJS, NestJS
- **Tools:** Github , Gitlab , Postman , TablePlus , Visual Studio Code , Pivotaltracker, Lark

Education & Certification

- CyberSoft Academy - Web Developer - (2023 - 2024)
- Cao Thang Technical College - Mechatronics Engineering Technology (2018 - 2021)
- Professional Front-End Developer - CyberSoft Academy - Excellent ([Certificate](#))
