LIÊU CÔNG DUY

Web developer with 3+ years of hands-on experience in building high-performance, scalable using ReactJS, Node.js and TypeScript. Passionate about full-stack development, designing scalable and efficient systems that power modern web applications. Committed to continuous learning, embracing new technologies and exploring innovative solutions.

SKILLS

Front-end: ReactJS, Next.js, TypeScript, Redux, Redux Thunk, Redux-Toolkit, Zustand, Material-UI, Tailwind CSS, Ant Design, HTML5/CSS3/JavaScript

Back-end: Node.js, Express.js, RESTful APIs, Jest, Prisma, Sequelize ORM

Database: MySQL, MongoDB, Redis, Docker, AWS

Tools: Git, Github, Slack, Backlog, Jira/Confluence, Linux, MacOS

WORK EXPERIENCE

WEB DEVELOPER   **Feb 2022 - Present**

Hybrid Technologies Viet Nam   **Ho Chi Minh, Viet Nam**

- Contribute to the development of scalable web platform across multiple domains with modern web applications.
- Specialized in building frontend applications using ReactJS, Redux, Next.js, TypeScript, and designing APIs with Node.js, ExpressJS, Prisma, Sequelize ORM.
- Identified and resolved bugs while optimizing website performance for faster load times and greater stability.
- Communicated directly with clients and teams to analyze requirements, troubleshoot issues, and improve delivery quality.

FRONT END DEVELOPER   **Sep 2023 - Feb 2024**

- Experienced in developing applications using React.js, Redux-toolkit.
- Proficient in using UI libraries such as Material UI, Tailwind CSS to develop responsive and dynamic user interfaces.
- Developed and implemented front-end features across projects, ensuring high quality and efficiency.

PROJECTS

Aircloset

Description: A large-scale clothing rental platform built on microservices architecture to ensure high performance and scalability across multiple domains.

Responsibilities:

- Contributed to the migration of the platform to a microservices architecture, enhancing scalability and maintainability.
- Developed and maintained the user interface using ReactJS, ensuring optimal performance, seamless user experience.
- Implemented and maintained backend services with Node.js, ensuring high efficiency and performance.
- Responsible project phases including basic design, detailed design, and integration testing to ensure high-quality deliverables.
- Conducted internal code reviews to maintain high code quality

Tech stacks: React, Redux, TypeScript, NodeJS, Restful API, MySQL, MongoDB, Redis, Docker, AWS.

Circus Agent

Description: A recruitment trend analysis platform that applies features to internal data, similar companies, and competitors.

Responsibilities:

- Developed and maintained the features web application using Next.js, providing an intuitive interface for internal operations.
- Implemented and maintained the backend within the same Next.js application using TypeScript, Prisma, ensuring seamless integration.
- Built and optimized operations and module functionalities based on project specifications to enhance performance.
- Assisted in debugging and improving the code bases.

Tech stack: ReactJS, TypeScript, NextJS, Zustand, MySQL, Prisma, AWS, Material-UI, Tailwind CSS.

Real Estate Posting

Description: This project facilitates connections between brokers and individuals interested in communicating, renting or leasing real estate properties.

Responsibilities:

- Developed web applications using React.js, enhancing user experience and optimal performance.
- Built and maintained backend services using Node.js, ensuring efficient data flow and system stability.
- Designed and integrated RESTful APIs with third-party services, enhancing application functionality and scalability.

Tech stack: React, Redux, Node.js, Restful APIs, Ant Design, Firebase.

Hullo Dating

Description: The smart dating application with the ability to connect users with others similar interests.

Responsibilities:

- Contributed to project development and implementation according to business requirements.
- Developed frontend features using React, ensuring optimal performance, user experience and responsive website.
- Worked closely with back-end developers to integrate APIs into user interface, ensure seamless application.

Tech stack: React, Redux-toolkit, RESTful APIs, Tailwind CSS, Material-UI, Docker, OAuth 2.0, Google Analytics.

EDUCATION

Bachelor   **Sep 2017 - May 2023**
Posts and Telecommunications Institute of Technology. Ho Chi Minh
