 - English: Negotiation

SUMMARY

I'm a passionate Front-end Developer with 6+ years of experience building responsive, user-focused web apps using Reactjs, Nextjs, and TypeScript. Skilled in crafting modern UIs, optimizing performance, and collaborating in agile teams.

WORK EXPERIENCE

Hung Thai Technology, District

May 2022 - Present

● *Front-End Developer*

Project: Portal for Crescent Mall App (Oct 2023 - Present):
Description: Crescent Mall App is a loyalty and shopping app developed by Hung Thai Technology and Crescent Mall, replacing the old version with PayME e-wallet integration. It supports event participation, member management, and VIP access to C-Club for Platinum members with exclusive benefits at Crescent Mall.
Team size: 9.
Role: Front-End Developer.
Techstack: Nextjs, Typescript, REST APIs, MySQL, Blueprintjs, Styled-component, Scss.
Responsibilities:
- Start a project from scratch.
- Developed features for event participation, member registration, and VIP C-Club access management.
- Worked closely with backend developers to consume APIs, handle authentication, and manage user sessions securely.
- Maintained and refactored reusable components to enhance scalability and code maintainability.
- Participated in code reviews, QA testing, and deployment processes to ensure high-quality releases.

Project: Admin Portal for Livin App (May 2022 - Present)
Description: Livin App is a loyalty app by Hung Thai Technology, offering lifestyle services and vouchers for PMH residents and visitors through local merchant partnerships. It also includes an Admin Portal for user management, bill payments, and real estate reporting
Team size: 9.
Role: Front-End Developer.
Techstack: Reactjs, REST APIs, MySQL, Ant Design, Material UI, Styled-component, Scss.
Responsibilities:
- Developed and maintained the Admin Portal UI using ReactJS.
- Built features for user management, bill payment tracking, and reporting dashboards.

- Integrated APIs to fetch and display real-time data for admin operations.
- Collaborated with backend and QA teams to deliver stable and efficient admin tools.
