INTRODUCTION

I graduated from Industrial University of Ho Chi Minh City. I know backend technologies and frontend technologies. Additionally, I have knowledge working with databases such as MySQL, MsSQL, MongoDB. Besides that, I know AWS(s3, ec2) and design patterns . I hope to gain further hands-on experience.

SKILLS

- Java: OOP, hibernate , spring(spring boot, spring security, spring data jpa), unit test
- Database: MySql, MsSql, MongoDB
- Tool: git, docker, redis, kafka
- English: Read documents and communication

EDUCATION

2020 - 2024

- Industrial University of Ho Chi Minh City
- GPA: 3.2

EXPERIENCE

- 2/2024 - 6/2024 : intern Dynamic365 FPT Software

CERTIFICATE

- Java(basic): https://www.hackerrank.com/certificates/e801a5054696

PROJECT

- **Notes-app (personal)**   Aug/2024
  - Describe: Application to store user's note
  - Backend: Nodejs, express, mongoDB, redis, swagger, RESTful API
  - Front-end: ReactJS, tailwind, redux
  - https://github.com/tklinh2002/Notes-app

- **App chat (personal)**   Jun/2024
  - Describe: App chat is like zalo chat, app has main functions: single chat, group chat,..
  - Backend: Rest API, MongoDB, Spring Boot, Spring Data JPA, Socket, Swagger
  - https://github.com/tklinh2002/AppChat__Backend_Java
  - Front-end mobile: React native, react query
  - https://github.com/tklinh2002/App_Chat_ReactNative

- **Website bookstore**   Dec/2023
  - Describe: The website has two main functions: purchasing and managing goods on the website. The purchase function helps users to buy goods online directly on the website. The management function helps the administrator to manipulate the products on the website.
  - Number of member: 3
  - Role: I'm responsible for feature admin both backend and frontend
  - Backend: Rest API, SQL Server Database, Spring Boot, Spring Data JPA
  - https://github.com/luongvandat-it/GUI_WWW
  - Front-end: HTML5/CSS, Boostrap, jQuery
  - https://github.com/luongvandat-it/WebsiteBookstore
