ABOUT ME

- I am a final-year student and i'm about to graduate. The skills I am most confident in are javascript and reactjs, I also have a basic understanding of back-end development concepts, including Spring Boot.
- I hope to become a fullstack programmer in the future

WORK EXPERIENCES

IriTech   10/2024 - 12/2024

- Learned how to read documentation and old source code for maintaining and developing projects.
- Database Analysis and Design
- Gained knowledge of basic design patterns.
- Improved skills in writing cleaner code and organizing folders efficiently.
- Developed teamwork experience through the use of Git.

PROJECTS
