SUMMARY

I am a Web Developer. I have 2 years of work experience in building web applications (JavaScript, C#). I am a ordinary person with a simple in appearance and mind. I like reaching and challenging many new things. Furthermore, Developer is a suitable field for people who love exploring new ones. So that's why I want to become a coder. I am looking to participate in new projects so that i can gain more knowledge and experience for myself in technology and multidisciplinary knowledge. Here are a few of my thoughts about myself, thanks for reading and It would be great to have a meeting of us. Thank you so much.
