IT Project

Fresh Foods Project

Personal Project

Function:
- Show product list, product details and search for product.
- Perform login/logout and register by JWT
- Create shopping cart function
- Perform online payment using Paypal

Bakery Project

Personal Project

Function:
- Show product list, product details and search for product.
- Perform login/logout and register by JWT
- Create shopping cart function
- Perform online payment using Paypal

Technology used:
- **Database:**
  - MySQL
- **Backend:**
  - Spring Framework;
- **Frontend:**
  - Angular 9

GitHub:
Backend:
https://github.com/HuynI4/C1022G1_sprint2_HuynI4/tree/main/BakeryBE

Frontend:
https ://github .com /HuynI 4/C1022 G1_sprint2_HuynI4/tree/main/BakeryFE

Language

- **English:** Basic

Hobbies

Reading books   Researching

Taking photos   Travelling
